## Document #7

Ova and Parasite testing State starting (9/1/08)

Ova and Parasite State testing will be set up as follows in VHN:

O&P1-S

O&P2-S

O&P3-S

IP and PVA codes will be expired August 30<sup>th</sup>.

You will order **O&P1-S** in the lab, and add **H-FEE 10 in the lab** for the \$10 charge. If you are trying to collect (3) O&P specimens, and you give out (3) parapacks, it is recommended that you do not order/enter the “O&P2-S or O&P3-S” until the client brings back the specimen, so you do not have outstanding labs.

*The \$10 fee will only apply to the O&P1-S.*

Do not do O&P in General Clinic for a **walk in client** who says they have an “itchy bottom”.

O&P can be done as part of CH with your CH guidelines, and on **adults who are household contacts of children diagnosed** with Roundworms, Whipworms, or Hookworms.

O&P can be done as part of the refugee program for 0 charge.

There is also a Quest Ova and Parasite test for physician ordered O&P testing, Q681.

*See print screen*
