Document #8

**New H-FEE 10 code=State lab handling charges for test that cost <\$25**

To start September 1<sup>st</sup>:

We already have LDRAW with a \$25 charge that can be added for State lab venipunctures, and LDRAW4 with a \$35 charge that can be added for HIV testing.

In order to be able to charge for our time doing state labs that are **NOT venipunctures, and that cost <\$25**, the charge had to be attached to something besides the lab test itself. That new service code will be **H-FEE 10**.

The H-FEE 10 is for (handling and conveyance), and the 10 is for the \$10 attached to that code.

*For example if an O&P or a Pinworm test is done, and you want to charge the client \$10 you will order "O&P1-S" and "H-FEE 10". (Refer to Document # 7)*

*Or PW and H-FEE 10.*

We can create other "H-FEE's" if needed for different charges.

**See attached screen print from Document #7**
